Johnny,  
Please see the attached response for your request to recommend angled parking. I appreciate you looking to us to assist, but on this I am not able to refute industry practices.

Johnny,  
I got a message from Kole to call you? Can you reach out at your convenience to my cell? (708)495-4675

Regards,

**Subject:** RE: Requesting a quote

Mr. Taylor,

Thanks so much for helping me understand this a little more. From our discussion, Kress Loop (SL 292) consists of E 5<sup>th</sup> street from the RR tracks east to Ripley Avenue and Ripley Avenue from E 5<sup>th</sup> street north to E 1<sup>st</sup> street (FM 145). This section has a municipal maintenance agreement. Posted speed limit is 30 mph with school zones on both E 5<sup>th</sup> street and Ripley.

My plan before submitting a estimate to develop a traffic safety analysis estimate is to reach out to the TxDot Area Engineer, Heath Bozeman, PE

Johnny,

Corky in my office is going to give you a call. He worked at TxDOT for a long time and is very familiar with these types of deals.

Thanks,  
KTG

What would Parkhill Charge for road safety survey for the Kress Loop to change parking from parallel parking to perpendicular parking for approval from TxDot?
